THE PRESIDENT OF THE GENERAL ASSEMBLY

LE PRESIDENT DE L'ASSEMBLEE GENERALE

17 November 2003

Another champion of people with disabilities, Helen Keller, commented regarding blindness that there was nothing worse than having sight, but being unable to see. After all, it is not sight, but vision that matters. It is a vision of equality of opportunity, of better standards of life in larger freedoms that we must all share, and which must be our guiding light in our endeavours for the full integration of people with disabilities into their countries and societies.

I thank you.
